

## English Y5

In Year 5 we will be concentrating on acquiring the skills for moving into Year 6 and to be ready for SATs next May. We will be raising our awareness of SPaG and continuing to investigate a range of spelling patterns. We will be concentrating on how texts are put together and what effect a writer is trying to create within their writing. We will examine layout and the use of fonts for different purposes.

## PE

### Athletics

Our Year 5s and 6s will be honing their athletic skills

### Tennis

There will be opportunities to develop racquet and ball skills.

Year 5

## History

The children will be studying an ancient civilisation. This time it is Ancient Egypt. They will study daily life, death and burial and the importance of the River Nile.

# Ancient Egypt

Summer 2016

Mrs Feast

## Computing

The children will be writing simple computer programmes.

They will also be using their computing skills to improve their literacy using Reading Express.

## Science

### Fossils, Inheritance and Characteristics

The children will be studying the fossil record and what it tells us. They will look at the fascinating subject of why we basically look like our family. They will learn about why some people can roll their tongue and others can't. Amazing stuff!

## Art

Our Art will be connected to our Year 5 Egyptian topic. We will be exploring different art materials to represent aspects of Ancient Egyptian mythology and daily life.

## Maths

All weekly maths lessons will follow the Singapore Maths Model.

We will continue to improve our Mental Maths skills in each lesson.

Year 5s will continue to explore geometrical themes and look at data

## Music

Weekly singing in our KS2 assemblies.

## French

Weekly fun lessons exploring basic French conversation and learning to write in French.

## PSHE

SEAL: Changes  
Preparation for moving on at the end of the year to a new class.
