

## English

We will be having a delivery of eggs into school in March. The eggs will hatch into chicks. We are going to be writing explanations about the life cycle of chicks.

We will then be writing stories around the Anthony Browne book Willy the Wizard. Our stories will include a beginning, middle and an end.

## PE

This half term we will be focusing on our agility skills. This includes running, stopping, hopping, jumping and changing direction.

## Geography

We are going to investigate how honey gets from bees to our supermarket. Also, if this journey is the same in different countries.

## Science

We will be studying the different flowers, parts of trees, deciduous and evergreen trees and lots of insects. We are going to carry out investigations to find out what plants need to live as well as how water is transported through a plant.

# Flowers and Insects

## Spring Term 2017

1JD and 1RB

## Art/ D.T

This term are going to look at Sunflowers by Van Gough and Butterflies by Escher. Then we are going to create our own piece of art work linking to flowers and insects using the same techniques as they do.

## Maths

Our focus this half term is our numbers to 40. We will be comparing, reading and writing these numbers. Then we will be word problems, multiplication and division.

## Computing

This term the children will be learning to collect, analyse and evaluate information. We will be using different sources of information to collect our data about flowers and insects.

## Music

We are going to listen to 'Flight of the Bumblebee' then create our own simple beat and rhythms to represent different insects.
