

English Poetry

The children will learn about lots of different types of poems including:

Acrostic
Rhyming
Shape poems.

We are then going to write our own version of the above poems linked to our topic of flowers and insects.

Art/ D.T

This term children will be able to use a variety of materials to build their own habitat. They will then be making an animal to live in their chosen habitat.

PE

Now it is the summer term we are going to be learning to play team games including rounders, cricket and football.

The Earth – Our Home Summer Term 2017 1JD and 1RB

Maths

Our focus this half term is numbers to 100, addition and subtraction word problems, fractions and time.

Geography

We will search the school for micro-habitats and create a map showing where they can be found. We will study habitats around the world.

Computing

This term the children will be learning to control a character to perform simple tasks. They will begin to write their own instructions or algorithms for the characters. Once they have mastered this they will move onto debugging and solving errors in instructions.

Science

We will be studying the habitats of the world and how animals are suited to their habitats. The children will carry out investigations into the habitats in our local area, study the parts of trees, their life cycle and food chains.

Music

The children will play simple rhythms with a steady beat, be able to use symbols to represent sounds and compose simple musical patterns.
